

Butlins Green Policy

At Butlins we are committed to working in a sustainable way to guarantee the quality of your visitor experience. We are actively undertaking the following actions to achieve this:

-  Through the Resort we comply with the requirements of environmental legislation and approved codes of practice
-  We continuously seek to improve our environmental and social performance
-  Through our Resort Rangers we encourage visitors to reduce the use of energy, water and other resources and Bob the Builder and his friends on hand to educate and encourage greener thinking!
-  We actively encourage recycling on the Resort and work hard to reduce our overall level of waste
-  We raise awareness, encourage participation and train employees in sustainable business practices
-  We expect similar environmental standards from all suppliers and contractors
-  We are committed to using local goods and services whenever possible and encourage visitors to use products and services in an environmentally sensitive way
-  We liaise with the local community and actively support community projects, local businesses and schools
-  We actively promote local tourism businesses in the surrounding area as part of the wider Butlins experience – why not book a trip to Arundel Castle or the Arundel Wildfowl and Wetlands Centre?
-  We have joined the Green Tourism Business Scheme as an indicator of our sustainable practices

We want you to have a fantastic experience at Butlins so please follow our Responsible Visitor Charter to make sure that your holiday is as sustainable as possible!

Our Resort Rangers like to do everything they can to be kinder to the environment. With their help, we have reduced our electricity usage by asking guests to make sure they switch off all electrical items when they are leaving their accommodation. We also have Bob the Builder™ and his friends on hand to educate and encourage greener thinking.
